

# LifeDop® 350 Series

## Robust tabletop doppler with large display

The LifeDop® 350 doppler is a convenient tabletop doppler system designed to effectively detect the fetal heart beat and monitor blood flow. It has a large heart rate display, rechargeable batteries, and accepts all LifeDop non-directional probes.

- Excellent sound/high-fidelity speaker with louder output
- Improved ergonomics and overall appearance
- Two probe holders for multiple applications
